## DETAILED ACTION

### *Claim Rejections - 35 USC § 101*

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-34 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to a method, process or system for performing a sequence of steps which is merely a program per se. While the program contains functionally descriptive material the recording of the functionally descriptive material on some computer-readable medium, which would enable the functionality to be realized, fails to be recited. Relative to claim 20 the recitation of "machine readable medium" is not sufficient in view of the definition of machine readable medium on pages 9-10 of the specification which definition includes transmission medium including carrier waves.

Contrary to applicants' remarks, first full paragraph of page 13, since "the present invention can be accomplished by way of software", the first sentence of paragraph 0034, then it reads on a program per se. The mere addition of the word "tangible" in claim 20 cannot distinguish between different forms of machine readable medium because "tangible" does not even appear in the original specification. The recitation of a practical application in the specification is insufficient to provide the claims with a practical application and the claims are directed to a data transformation, not a physical transformation.

*Allowable Subject Matter*

2. Claims 35-40 are allowed.

*Conclusion*

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
